ROOSEVELT TAKES RIDE IN AIRSHIP

T. R. MAKES FLIGHT WITH HOXSEY AT ST. LOUIS AIR MEETING.

ENJOYED IUNIQUE EXPERIENCE

Put in Strenuous Day, Making Three St. Louis Speeches—Is at Peoria Today.

St. Louis, Oct. 12.—Well the colonel did it, by George. He went up in the air. Like a good many others he has succumbed to the temptation of flying. Late Tuesday afternoon, at the Kinloch aviation field, eighteen miles east of St. Louis, Mr. Roosevelt made his first flight with Arch Hoxsey. In a Wright biplane he encircled the field twice, and remained in the air 3 minutes and 20 seconds. When he came down to earth the colonel exclaimed that it was the bulliest experiment he had ever had.

"It was the finest experience I ever had," he shouted to the crowd of cheering thousands. "I would have liked to stayed up an hour." He shook hands with Hoxsey, thanking him for the ride and then he disappeared in a cloud of dust. This was only one of dozens of interesting things the colonel did. He rushed and whizzed and flew about just like he used to do. St. Louis folks who attempted to follow his course gave it up as a bad job. It was simply impossible.

The colonel made three big speeches, morning, noon and night. In the Coliseum before an enormous crowd he hammered away at his notions of tariff making. He repeated a good many things he has said before, but he said that he desired to make himself perfectly clear on that issue.

In the morning Mr. Roosevelt took up the matter of control of the waterway terminals and keeping them away from the railroads. At a luncheon before the Traffic Club at noon he spoke in favor of government control of the big railroad corporations.

It was just after luncheon that the colonel started out for the Kinloch air meeting. Upon reaching the aviation field, the colonel at once rode into the center of the enclosure. While he sat in an automobile with Gov. Hadley, Arch Hoxsey, who had been flying, came over and spoke to the colonel quietly. The governor introduced them.

"I'd like to have you for a passenger," said Hoxsey. The colonel looked about and above. There was no wind and the conditions appeared to be right. He had not intended to fly. Suddenly he began to remove his coat.

"You're not going, are you colonel?" asked Gov. Hadley anxiously.

The colonel looked about him. "By George I think I will," he answered and he stepped out of his motor car.

The colonel devoted all his attention to Hoxsey and the jiggers that worked the plane. He sat on the left side of Hoxsey. Somebody passed him a cap and the colonel put it on. He was ready for the swoop. Hoxsey gave the signal to let go. The areoplane rose gently and gradually to a height of 100 feet. As it rose it picked up more speed and before he knew it Mr. Roosevelt and the aviator were swooping over the heads of the crowd. The biplane descended in a complete circle and made a long loop. In three minutes and 20 seconds the plane glided back to its original position near the colonel's machine.

Mr. Roosevelt topped off one of the wildest days of his career with his address at the Coliseum. A crowd of nearly 15,000 persons were jammed inside the great hall. It was a noisy, cheering crowd that gave him one of the loudest welcomes he has had.

Today he leaves for Peoria, where he is to deliver an address at a dinner given by the Knights of Columbus.

SHERMAN AT CHICAGO

Vice President Guest of Knights of Columbus at Banquet.

Senator Lorimer Is Also to Be a Guest of the Order and Will Sit at Same Table With Sherman.

Utica, N. Y., Oct. 12. — Vice President Sherman left last night for Chicago, where tonight he will be the guest of honor at the annual dinner of the Knights of Columbus, and deliver the principal address of the occasion. Senator Lorimer will attend the function and sit at the same table with Vice President Sherman.

The vice president is an extremely busy man and it was with difficulty that he arranged his engagements to permit him to go to Chicago and deliver a speech. However, it is hinted, that Mr. Sherman formed the opinion that Col. Roosevelt was a bit hasty in condemning Lorimer and that his prejudgment of the latter was not alone humiliating to the senator, but entirely uncalled for. The vice president, his friends insist, is willing to presume a man innocent until he is proven guilty, and it is in that spirit that Mr. Sherman goes to Chicago and dines at the same board with Senator Lorimer.

APPOINTMENTS MADE; CONFERENCE OVER

DELAY OCCASIONED BY EFFORT OF BISHOP TO SATISFY EVERY CHURCH.

MANY CHANGES OF INTEREST

Convention Considered Great Success and Delegates Well Cared for by Dixon Citizens.

The Rock River conference of the Methodist Episcopal church adjourned Tuesday afternoon after what was said to have been one of the most harmonious and successful of the 71 annual sessions.

Bishop Cranston had hoped to read the assignments Monday night, following the lecture, but to his own great inconvenience delayed the announcement a day and missed an important engagement in Baltimore that he might satisfactorily adjust some conflicting claims of the nearly 400 ministers and churches.

The Rev. R. Scott Hyde, who came into the conference from Omaha in exchange with Rev. E. B. Crawford, had been slated for the Court Street church, Rockford, but he desired a Chicago appointment and the matter was held up until Tuesday morning to accommodate him. Tuesday morning committees came from Ravenswood and Oak Park churches with requests which again complicated the adjustment of appointments, so that it was 3 o'clock in the afternoon before the lists were ready to be made public.

Changes of Interest

The changes about which greatest interest centered were the following:

Woodlawn Park, from which Rev. E. B. Crawford was transferred to Hanscom Park church, Omaha received as its pastor a transfer from Harrisburg, Pa., Rev. H. Curtin Harmon, in exchange for the Rev. C. C. McLean, who goes to Harrisburg.

The Rev. R. Scott Hyde, former pastor of Hanscom church, Omaha, goes to Ravenswood and Rev. R. J. Wyckoff goes from Ravenswood to First church, Elgin.

Rev. M. B. Williams goes from First church, Oak Park, to the First church, Elgin.

Rev. Frank D. Sheets succeeds the Rev M. C. Hartzell as pastor of the South Park avenue. Dr. Hartzell asked relief from all work for a year on account of serious illness.

Former Dixon Pastors.

The members of the Dixon church are very much pleased that Rev. Fred D. Stone has been returned to this church, although there was never any question but what he would be returned.

W. A. Phillips succeeds C. C. McLean at Evanston avenue, Chicago.

Wm. Craven has been appointed corresponding secretary of the Superannuates' Relief association. He will not fill any pulpit regularly, but will speak in the different churches in the interest of the association he represents.

O. H. Cessna is retained as professor and chaplain of the Iowa State college at Ames, Ia., and remains a member of this conference.

H. T. Clendenning goes from the First church, Elgin, to Waukegan.

M. E. Cady goes from Earlville, Dixon district, to West Pullman, Chicago, Southern district.

O. F. Mattison is retained at Barrington, Chicago Northern district.

Frank H. Sheets is appointed secretary for the Corean Quarter Centennial Jubilee.

A. T. Horn remains at DeKalb and G. C. Clark at Mayfair. Each was a former pastor residing in this district.

I. E. Honeywell, at one time pastor at Ashton and Franklin Grove, and remembered as Evangelist Sunday's assistant, is appointed conference evangelist.

W. B. Norton the religious editor for the Chicago Tribune and a member of this conference, has been appointed research secretary of the Methodist Historical society. He will not serve a church regularly this year, but will continue his newspa-

TAFT WILL REVIEW BOSTON PAGEANT

PRESIDENT TO PARTICIPATE IN THE COLUMBUS DAY EXERCISES.

NEW YORK VISIT IS PLANNED

Refuses to Consider Pardon of Morse Until Reached in Regular Manner.

Beverly, Mass., Oct. 12.—President Taft declined to consider an application to pardon Charles W. Morse, the banker, who is serving time at Atlanta, until the case has been brought before him regularly through the department of justice. This statement was drawn from the president by a visit of Gilbert A. A. Peavey, of Cambridge, whose daughter was married to one of Mr. Morse's sons. Mr. Peavey came to the Taft cottage with a letter of introduction from Representative McCall of Massachusetts, and urged Mr. Taft to exercise clemency in Mr. Morse's case. The president pointed out that it is customary for all pardon cases to pass through the department of justice, and he would be obliged to adhere to the rule in the Morse case. He promised, however, that he would have an opportunity to be heard when the case comes before him in the regular order.

Strong pressure has been brought to bear on the president recently in behalf of both Mr. Morse and John R. Walsh, the convicted Chicago banker. Mrs. Morse has been busy among senators and representatives, preparing a petition and Mr. Walsh's friends have been equally active.

The president has decided to spend two or three days in New York city before returning to Washington. He will leave Beverly next Monday afternoon and will arrive in New York at 8 o'clock in the evening. He will be in the city Tuesday, Wednesday and perhaps part of Thursday.

Mr. Taft will have conferences with some of the Republican leaders in New York and may attend the theater. Mr. Taft is going to Boston today to review the Columbus Day parade. Among other visitors at the Taft cottage were Gen. Henry C. Ide, minister to Spain and Col. Ike Ullman, Republican boss of New Haven.

ROBERT DALE ADAMS DIED THIS MORNING

WAS THE YOUNG SON OF MR. AND MRS. ROBERT ADAMS.

Robert Dale, son of Mr. and Mrs. Robert Adams, died at 1:30 this morning, a victim of scarlet fever. The boy would have been nine years old on the 26th of this month.

He was taken sick last Monday. Besides his parents he leaves two sisters.

The funeral services will be held at the home, 1323 West First street, on Thursday afternoon at 3 o'clock.

The sympathy of the community is extended to Mr. and Mrs. Adams in their bereavement. Robert was a bright little fellow and will be greatly missed by his parents, sisters and many little playmates.

DEFENSE TAKING TESTIMONY TODAY

BOYER-BEALE CASE WILL LIKELY GO TO THE JURY THURSDAY.

The defense in the personal damage case of Boyer vs. Beale, now on trial in the circuit court, began taking testimony this forenoon. The case will go to the jury probably on Thursday afternoon.

SUCCESSFUL SALE

Morris Cook of Steward held a wonderfully successful sale Tuesday at his farm residence. C. E. Gardner and George Fruin were the auctioneers. Fifty head of Hereford cattle brought $90 each and 26 head of sheep averaged $10. J. C. Wadsworth of South Dixon bought six head of cattle. The attendance was large.

PROTECT PUBLIC ON GALENA AVE.

RAILWAY CO. SHOULD ERECT GATES AT FOOT OF THE HILL.

TRAFFIC IS INCREASING THERE

Drivers Are Unable to See Trains Until Close Upon the Crossing.

Why not have a pair of gates at the railroad crossing at the foot of Galena avenue hill? Why wait until a street car or a carriage or an automobile full of people is caught on that crossing and ground into eternity by one of the many freight trains or switch engines that cross Galena avenue many times a day? The recently added factory in the east end will increase the traffic over these tracks and will multiply the chances of a tragedy occurring.

It is ridiculous that a steam engine and train of cars should be continually crossing one of the busiest thoroughfares in our city, virtually in the business center, with no more warning than a man with a little flag who is, when there is any traffic on the street, obscured from the view of most of the travelers.

The corner is a blind one and a beautifully constructed death trap. A man driving down Galena avenue toward the bridge would not ordinarily look for railroad tracks there and would be almost upon the crossing before he saw them. There are two-story buildings on both corners and this prevents a view of the track in either direction until one is almost too late to stop.

A pair of gates that closed down upon the approach of an engine or a train would give warning to drivers coming down the hill and coming across the bridge.

Yes, it's quite true that people ought to be on the lookout, ought to see the tracks and know that a train may be coming along, but they don't do it and probably never will. The biggest portion of railroad accidents of this kind never would have happened had people been careful. You have got to make them stop.

Almost every town on a railroad, large or small has its dangerous crossing guarded by gates. The switch track is owned by the Northwestern Railway company. As a protection for our townspeople and for tourists and travelers going through our city, we ask that steps be taken immediately to have proper apparatus conducive to the above mentioned and badly needed protection, installed.

MORE POSTOFFICE MATERIAL ARRIVES

Mr. Canman has been notified that the screens for the letter boxes, the safes and the marble for the public corridor and toilet rooms has all been shipped and will reach here in a few days. Mr. Canmann expects the large boiler within a week or ten days

ROBBERS VISITED LUMBER CO. OFFICE

ATTEMPT MADE TO OPEN SAFE OF EMERSON LUMBER COMPANY.

CHATHET USED ON THE KNOB

Inner Door of Safe Not Opened and Robbers Were Evidently Frightened Away.

Robbers were busy in Dixon again last evening. This time the office of the Emerson Lumber company was entered, through a window,, the door of the safe opened, but nothing was missing.

All this occurred between 6 and 7 o'clock. At 6 o'clock Uriah McKinney left the office to go to his supper at the Dewey hotel. When he returned to the office he did not turn on a light as he intended to remain but a few seconds. In walking through the office he struck against the open safe door. At once he turned on a light and found that the safe had been opened and an effort made to knock the knob off the inner door with a hatchet. The robbers must have been frightened away as they did not complete the job of opening the inner door of the safe.

Charles George, who works for the company, left the yards shortly after 6 o'clock and did not hear or see anyone about the office. Later he returned to get his popcorn wagon and then did not hear or see anyone.

Dr. E. A. Sickels will attend a meeting of the Northwestern Homeopathic Medical society at Rockford Thursday. The doctor will make the trip in his automobile. He will return some time Thursday night.

M'KENZIE SPEAKING IN TOWNS OF COUNTY

IS ACCOMPANIED ON TOUR BY COUNTY CANDIDATES FOR OFFICE.

WILL BE IN DIXON SATURDAY

In Compton Tonight, Amboy Thursday and Franklin Grove on Thursday Night.

Senator John C. McKenzie, who began a speaking tour of Lee county last evening, addressed several hundred voters at Lee. He arrived in the village early in the afternoon and spent the remainder of the afternoon and evening meeting the voters. With the senator are Chairman Ed. F. Guffin, Judge Robert H. Scott, County Clerk W. C. Thompson, Deputy Sheriff Reid, Warren Badger, republican candidate for treasurer and L. W. Miller, candidate for county school superintendent.

After the meeting the party in two automobiles went to Pawpaw, where they remained over night, leaving for Compton soon after noon, where the senator speaks tonight.

Senator McKenzie is in good trim. His voice is strong and for 40 minutes he reviewed federal issues, talked republicanism, praised the administration of Taft and made a strong appeal for a tariff commission. Senator McKenzie is one of the first public men in Illinois who took a stand for a tariff commission and at every opportunity he had he took occasion to express his views upon this important national question.

Support the Ticket.

The senator urged all republicans to support the straight ticket, and to be sure and turn out on election day. People who cry reform are sometimes absent from the polls when an opportunity is presented to do their state and country much good. He appealed to them to get busy in their good work and set the example for good politics and good citizenship by voting.

Senator McKenzie stands for waterway legislation with government aid but stands absolutely against such improvement without federal aid. He is against bonding the people of Illinois for $20,000,000 to deepen the Illinois river. He maintains that if that improvement is a good thing, it ought to be a good thing for the government as well as the state and Uncle Sam should be asked to pay his share of the expenses.

Amboy on Thursday.

Thursday Senator McKenzie and party will visit West Brooklyn, Sublette and Amboy, speaking at the latter palce in the evening.

Friday evening he will speak at Franklin Grove and Saturday night at Dixon.

AUTO REPAIRED HERE.

The Matheason Silent Six owned by John Parsons of Burlington Ia., which was badly wrecked in the deplorable accident in which Roy Brink lost his life, has been undergoing repairs and is now as good as new. The repair work was all done in local shops and is a credit to Dixon talent.

Mr. Parsons is in Dixon and tried the car out today. He will leave shortly on an overland trip to his home in Burlington.

Mrs. H. M. Wright and daughter, Miss Mamie, returned from Chicago Tuesday.

Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Fitchville, Ohio.—"My daughter was all run down, suffered from pains in her side, head and limbs, and could walk but a short distance at a time. She came very near having nervous prostration, had begun to cough a good deal, and seemed melancholy by spells. She tried two doctors but got little help. Since taking Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Liver Pills she has improved so much that she feels and looks like another girl."—Mrs. C. Cole, Fitchville, Ohio.

Irasburg, Vermont.—"I feel it my duty to say a few words in praise of your medicine. When I began taking it I had been very sick with kidney and bladder troubles and nervous prostration. I am now taking the sixth bottle of Lydia E. Pinkham's Vegetable Compound and find myself greatly improved. My friends who call to see me have noticed a great change."—Mrs. A. H. Sanborn, Irasburg, Vermont.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

LOST HER HAIR

WOMAN ALMOST BALDHEADED GREW FOUR INCHES OF HAIR.

Here is a piece of live news from Browntown, Minn. that ought to interest skeptical men or women readers of the Telegraph who are losing their hair or have dandruff or itching scalp:

Remember that Rowland Bros. sell Parisia nSage under a positive guarantee to stop falling hair and itching scalp and eradicate dandruff in two weeks.

Parisian Sage is a most refreshing and daintily perfumed hair dressing, free from grease or stickiness. It makes dull, lifeless hair radiant and lustrous.

"Parisian Sage is the best hair grower and beautifier and dandruff cure. I lost all my hair through typhoid fever. I was almost baldheaded and my scalp was sore as could be. I tried everything, but in vain. Finally I tried Parisian Sage, and after using one bottle my hair started to grow, and has grown three or four inches inside of two months. I advise every lady who wants beautiful hair to use Parisian Sage." Miss Meta M. Kruger, Browntown Minn., June 8, 1910.

Parisian Sage is only 50 cents a large bottle at Rowland Bros. and druggists everywhere. The girl with the Auburn hair is on every package.

Ship Money.

Charles I. was badly in need of money, and his attorney general in the course of his antiquarian researches discovered that in the dim ages of the past the crown had issued writs to the cities and towns on the coast requiring them to provide vessels for the royal needs, and he suggested that this ancient right might be brought into use again. Instead of the actual vessels a money contribution might be exacted instead. Thus the king would be able to tax a larger part of the realm while theoretically observing the laws. Writs for ship money were accordingly issued, but the patriot John Hampden declared that they were illegal and raised such a protest against them that they were practicaly nullified.

A Fair Proposition.

A popular comedian and playwright was praising the humorous value of suggestions. "It is funnier to suggest a thing," he said, "than to say it out. Playwrights should remember this. Suggestion—pregnant suggestion—is what makes really funny the little boy's remark to his father, 'Pa, if you help me with my arithmetic lesson tonight I'll tell you where ma hid your trousers.'"

BABY EATS MATCH HEADS AND DIES

20 MONTHS' OLD BOY EATS FATAL MEAL WHILE HIS MOTHER IS AWAY

Elgin, Ill., Oct. 11.—While playing in the basement of their home, Lysle Stark Ostler, the twenty months old son of Mr. and Mrs. William O. Ostler, ate the heads off of about 12 matches and died from phosphorous poisoning at 2:45 Saturday afternoon. The fatal meal was eaten at 10:30 Friday a. m.

Mrs. Ostler was at work in the laundry at their home and the child found a box of matches in a drawer of an old bureau. Busily engaged in her work, the mother did not notice what her child was doing and it was some time later that she smelled sulphur on his breath.

As soon as she learned the baby had been eating matches Mrs. Ostler called a physician but it was too late for medical aid. The little fellow suffered terribly.

The matches were ordinary parlor matches.

I Love You.

Very interesting are the phrases used by the various people of the world to express "I love you." Wherever there are human beings declarations of love are made, and there are a thousand languages in which the tender passion may be expressed. The Chinese say "Uo ugai ni," the Armenian expresses his love with "Se siren as hez," the Arab is content with the short "Ne habbek," while the Turk murmurs "Sidi sevelorum." In India "Main syne ka pisar karim" is the declaration. But the Greenlander holds the palm for the word of love. When he does not stammer it has fifteen syllables and has been recorded phonetically thus: "Unifgraeerndlainalerfironajunguarrigujak!"

A Wild Exploit.

A singular character was the spendthrift James Rhodes, who flung money up and down the Great White Way, in New York, for months. His crowning exploit occurred in London, where he went to finish a spree. Rhodes dropped into the Prince of Wales theater one evening while the orchestra was playing "God Save the King." From his box he ordered the leader to render the "Star Spangled Banner." The musician ignored him, and Rhodes drew a six shooter and began shooting out the lights. He went to jail for awhile. When, a little later, he returned to New York the remnants of his fortune had disappeared.—Chicago Record-Herald.

per work and do the historical work assigned him.

W. H. Carwardine, son in law of Rev. John Williams of this city and who reports the conference for the Chicago Examiner, has been assigned to the Seventy-seventh church, Chicago, where efforts have been made to secure him.

Conference a Success.

One thing which added materially to the success of the conference was the systematic manner in which Rev. Stone and his assistants looked after every detail of comfort and convenience of those in attendance. Every need had been anticipated, and the promptness with which wants were supplied was the occasion of frequent comment. The hospitality of the people of Dixon and the good service of hotels and restaurants were also complimented and were incorporated in the following resolution passed before adjournment:

Thank People of Dixon.

RESOLVED, That we express our heartfelt appreciation of the generous hospitality of the citizens of Dixon; and of the kind invitation of the members of this church to hold our sessions in this comfortable auditorium; of the unceasing attention of their pastor to our welfare; of the accommodations provided by the ladies of the different denominations in furnishing meals each day; of the singing by the choirs of the various churches and by our own ever welcome Conference Quartet; and of the excellent reports of our sessions appearing in the Dixon and Chicago papers.

RESOLVED II., That we place on record our tribute of appreciation of Bishop Cranston. His keen business ability and able presidency have commanded our respect; while his unfailing brotherliness fine courtesy and uniform impartiality have won our hearts' affection and confidence. We also record that the presence of Mrs. Cranston moving in and out among us from day to day has been a delight to the conference; and we pray that Heaven's choicest benedictions may rest upon them in all the years to come.

DIXON COLLEGE NOTES.

Mrs. Virden is certainly kept busy these days. She finds it difficult to be in more than three places at once though she says it really seems necessary.

Eight new students were enrolled yesterday. They were: Edward Rongklein, Strum, Wis.; Irene Black, Hebron, Ind.; Daisy Swearingen, St. Joseph; Irene Swearingen, St. Joseph; Ruth Elliott, Granville; Terry Gollier, Chetek, Wis.; Henry Jung, Rock Falls, Minn.; Francis Lopez, Cutano, P. R. This bids fair to be a record breaking term as far as enrollment is concerned.

Chapel exercises this morning were especially interesting. Miss Chase gave two delightful violin solos. She always plays with great feeling as well as finish.

Reginald Martin gave two piano numbers, Etudes from Chopin. He interprets the music of the great composers in a most pleasing manner.

We now have ten students from Porto Rico, all of whom are much interested in their studies.

Mss Bertha Swain was a welcome visitor at the college Monday. Her sister, she tells us, is to enter next Saturday for a course in stenography.

Miss Delene of Milan is a new arrival who yesterday joined the English literature and ancient history classes.

O. B. Dodge was a visitor at chapel this morning.

Miss Irene Black arrived yesterday to take up a course in music and fine art. She is a former student and will be warmly welcomed.

It seems that every day brings a number of new faces to swell the muster at chapel and in the dining hall.

FAMILY CHARGED WITH MURDER

Dietz Appeals to Mayor Seidel for Aid—Wants to Procure a Good Attorney

Aurora, Ill., Oct. 12—City Clerk Wm. J. Flanagan of this city a close follower of John Deitz, the Outlaw of Cameron Dam, and his troubles, yesterday began an "endless chain" country wide movement to get funds for the defense of John Detiz and his family in the several cases that will be brought up against him in Wisconsin.

Flanagan is writing letters to ten of his friends asking them to send money to Detiz at Winter, Wis., and asking them to write to ten of their friends and so on.

Deitz Hearing Postponed.

Hayward, Wis., Oct. 12—Because of the absence of District Attorney J. C. Davis the hearing before Judge J. F. Riordan of Deitz, his wife and their sons Clarence and Leslie was not held yesterday but is expected today. The district attorney was in Winter attending the inquest held over the body of Oscar Harp, killed in the assault on the Deitz cabin.

The coroner held that Harp was killed by a bullet fired by one of the Deitz family. A charge of murder in connection with the killing of Harp will be made against Deitz, Mrs. Deitz and Leslie Deitz.

Deitz Appeals to Mayor Seidel.

Milwaukee, Oct. 12—John F. Deitz sent a telegram to Mayor Emil Seidel of Milwaukee asking him to get a competent attorney to defend him. Deitz declares that he would prefer to be defended by Clarence S. Darrow of Chicago, if possible.

COL. MEESE HERE TO SEE EDWARDS

MOLINE ATTORNEY GATHERING MATERIAL FOR WATERWAY REPORT.

Col. W. A. Meese of Moline stopped here Tuesday afternoon on his way up the river to Oregon. He was a guest at the Lowden home Tuesday night.

During his short visit here Mr. Meese was in conference with Mayor Edwards. They discussed waterway plans and waterway legislation. Col. Meese spent nearly all of Tuesday with Capt. Wheeler at Sterling.

Wednesday Col. Meese will visit in Rockford. He is busy making an annual report of the waterway condition to date.

Being in a hurry to get his team at the livery barn Col. Meese could talk little and all he could say was said while the colonel was on the move. He did say, however, that it was the intention of the waterway committee to get before congress at its coming session some report that he thought would be acted upon favorably.

Col. Meese believes much will be accomplished in a year or so in making Rock river a navigable stream.

Geo. Wright is here for a visit with his paernts.

M. D. Wingert of Franklin Grove spent the day in Dixon.

Not So Much of a Joke.

The late Linley Sambourne, the famous Punch cartoonist, began life in an engineering works. When a young man he was always fond of playing practical jokes, and a French draftsman employed at the engineering works often became the butt of his humor. One day Sambourne hit upon the bright idea of nailing the Frenchman's hat down to his desk. He awaited the consequences in high glee. But when lunch time came instead of attempting to tug the hat from the desk, as expected, the French youth calmly took another hat from the peg and went out. Then the future cartoonist looked closely and saw that it was his own hat he had nailed to the desk.

The Famous Rayo

Is the Lamp of Real Beauty

because it gives the best light of all lamps. The Rayo gives a white, soft, mellow, diffused light—easy on the eye because it cannot flicker. You can use your eyes as long as you wish under the Rayo light without strain.

The Rayo Lamp is low-priced, and even though you pay $5, $10 or $20 for other lamps, you may get more expensive decorations but you cannot get a better light than the low-priced Rayo gives. BE KIND TODAY.

Less spent on the dead and more spent on the living would bring about many happy results. Hearts are breaking, loved ones wait, and tears flow all because of the withholding of kind words unspoken and letters never sent. Behold the sad mistakes of others, their remorse, and profit by the same before it is too late. Today, now, speak the loving word, send the tender message, write the letter you put off day by day, and don't wait until you forget it or until bitter memories haunt you.

Eternal Lamps.

A common superstition that the ancients possessed the art of making lamps which would burn forever for a long time obtained, and it was claimed that one such lamp was discovered in the tomb of Rosicrucius. Science, however, has long set this, together with other superstitions, forever at rest, since it has been demonstrated that fire will not burn in a chamber from which the air has been exhausted.

REV. FISHER ELECTED DELEGATE TO TOPEKA

The congregation of the Christian church last Sunday elected their pastor, S. Elwood Fisher, to represent them in the National Convention of Christian churches in session at Topeka, Kas., this week. They not only made him their delegate, but generously made it possible for him to go. Rev. Fisher has been honored with an invitation to deliver a sermon next Sunday in one of the convention city churches.

A Rain Trap.

In a time of distressing drought, says a writer in the Yorkshire Post, a harassed amateur agriculturist stepped into a shop to buy a barometer. The chapman was giving a few stereotyped instructions about indications and pressures when the purchaser impatiently interrupted him.

"Yes, yes," said he, "that's all right, but what I want to know is how do you set it when you want it to rain?"

FI FI COSTUMES HAVE ARRIVED

WILL BE A BEAUTIFUL LITTLE MUSICAL PLAY—ELABORATE COSTUMES.

The costumes have arriged from Chicago for Fi Fi of the Toyshop, to be staged here Thursday and Friday evenings and Saturday afternoon of this week, and have been distributed so that all the characters may have sufficient time for the full adjustment and details of bows, hair ribbons, rosettes, etc., so essential to the finished appearance of each of the groups.

The costumes have arrived from being dreams of loveliness, attractive and artistic in appearance. One brilliantly gowned group is that of the bridesmaids. They will appear in Janice Meredith costumes, their flower dance preceding the procession of boys who come to honor the nuptials of the French Doll and Toy Soldier.

The Paper Dolls will be unique, wearing dainty creations of paper with large flower picture hats to match. They have never been "cut apart" until the toy girl takes pity on them and uses her shears to good effect.

The Dance of the Winds also will have an artistic costuming; they appear in serpentine draperies of white and gold with a background of stars and crescent moon.

Aside from these are fairy sprites, jumping jacks, live letter blocks, Noah's ark animals, clowns, china dolls, Japs and many other elaborately costumed groups.

Those who have seen Fi Fi in other cities say it is more spectacular than Little Nemo or Peter Pan.

The sale of seats opens today at Campbell's drug store and as the advance tickets have been going like the proverbial hot cakes the sale promises to be very heavy. Those who see Fi Fi will be more than pleased for the production has been so successful in other cities that from 18 to 20 performances were necessary to satisfy the demand for seats. An elaborate costuming and scenic equipment will add to its attractiveness.

REVENUE CUTTERS.

Varied Duties of These Life Savers of the Seas.

No men in the employ of Uncle Sam render more efficient service than do those of the revenue cutter service. The term "revenue," which would indicate that their duties were restricted to those pertaining to the proper enforcement of the revenue laws, can give but a faint notion of the varied duties of this splendid corps of men. As a matter of fact, revenue cutters are the life savers of the seas. They patrol the coasts on regular beats, on the watch for vessels in distress. They must suppress mutinies, prevent smuggling and illicit seal hunting; they must examine ships' papers, enforce quarantine regulations, supply lighthouses and in general do all kinds of police work. Then, too, they have been dubbed "the messenger boys of the seas."

Alexander Hamilton was the father of the revenue cutter service, for it was under his administration of the treasury department that, in 1791, ten cutters were built and put in commission under rules of his own devising. In time of peace the cutters are under the supervision of the treasury department, but in times of war they are transferred to that of the navy department. Since the war of 1812 they have always rendered excellent service in the event of armed hostilities. Every one remembers the remarkable work done by the McCulloch, under Dewey, at the battle of Manila Bay.—New York Press.

Tunnels.

A New York newspaper remarks that "ferries come and ferries go, bridges rise and bridges fall, but tunnels last forever." There is a scientific truth in the observation. Of all works of man earthworks, plain earth mounds sodded over, are about the most enduring. A properly constructed tunnel is essentially a work in earth and so almost as permanent as the great globe itself.—Exchange.

Cruel.

Old Aunt (on her deathbed)—I am just making my will, my dear Heinrich. I know, alas, too well that you are not religiously disposed and have no desire to promote the cause of—

Nephew (hastily)—Beg your pardon, aunt; quite the contrary.

Aunt—Heaven be praised! Then you will be glad to hear that I have left all my property to the church!—Humoristische Blatter.

She Knew Him.

She—You know, Harry, so far as I am concerned, I am only too happy to become your wife, but my father, you know—

He—But what has your father got to do with it? Your father hasn't got to live with me.

She—No, Harry, but you may have to live with father, you know.—Boston Transcript.

Dramatic Notes

THE ILLINOIS, CHICAGO.

The Dollar Princess is without a doubt the best musical play that has visited Chicago in many years. It is a genuine relief to hear music that is both melodious and classy instead of the kind that has only a lilting chorus. There are 22 musical numbers in The Dollar Princess, and it is hard to tell which is the more irresistible. A Self-Made Maiden; The Riding Lesson; My Dream of Love; Inspection; Truly Rural; Love's a Race; Reminiscences, and a score of others are going to prove the most popular music Chicago has heard for a long time.

The curtain on the evening performances at the Illinois is rising at 8 o'clock and the matinees at 2 o'clock. As the performance is unusually long, it was decided to begin earlier in order that out of town patrons might be free in time to catch convenient trains home. A trip to Chicago without seeing The Dollar Princess would be like a trip to Washington without seeing the Capitol. Residents of Dixon should not miss seeing The Dollar Princess.

Making It Clear to Him.

"It is very difficult to understand London English," said an American. "I know a man who had lodgings in Bloomsbury, near the British museum. On his return from the museum one afternoon my friend said to his landlady:

"'Can I have a cup of tea, if you please?'

"'Certainly, sir; at once,' the landlady replied. 'The kettle 'as been b'ilin' for ours.'

"'But—er—I prefer freshly boiled water, if you don't mind,' stammered my friend.

"The landlady reddened with anger.

"'Look 'ere,' she said, 'if I 'ad meant wot you mean I'd 'ave said h-ours.'"

In the Same Situation.

A man who lived near a physician was employed by the doctor to set out some shade trees around his residence. A short time later the physician was called to attend the mother-in-law of the man who had set out the trees. The old lady died, and the physician presented his bill. After paying it the citizen thought of the trees and made out and presented a bill for them. "But the trees died," protested the doctor. "So did my mother-in-law," retorted the other man. The doctor paid the bill.

The Birth of Reform Schools.

The first reform school for juvenile delinquents was probably the one organized at Metray, near Louvre, France, about the year 1839 by M. de Tetz, a noted councilor of Paris. M. de Tetz found in some wealthy noblemen the financial assistance he needed to materialize his idea, and the school was started with the most beneficent results. The idea was taken hold of in other quarters not only of France, but of other continental countries, and the enthusiasm created by the work resulted in the grand "conference of the reformatory union," the real beginning of our present day work in behalf of juvenile delinquents.—New York American.

The Cobweb.

A story was told the other day of a little girl who discovered a cobweb and then, seeing a spider emerge from it, called out: "See the cob run! How fast the cob runs!" As a matter of fact she builded better than she knew, for cob, or cop, is, according to the dictionaries, the name sometimes given to a spider, whence the word cobweb, which is, strictly speaking, copweb. Cop in this sense is probably an abbreviation of the Anglo-Saxon attercoppe, a spider.—London Notes and Queries.

CHARGE PLOT IN LAKE BUSINESS

Many Railroads Are Accused by Chicago Men.

INVESTIGATION IS ASKED FOR

Complaint Is Filed with the Interstate Commerce Commission at Washington—Plot to Ruin Water Rivals Charged.

Washington, Oct. 12.—Charging a conspiracy by railroads to deprive western grain shippers of the advantages of cheap water rates, officials of the Chicago board of trade filed a petition with the interstate commerce commission asking an investigation.

The petition asserts that the railroads are trying to drive the grain transportation business from the lakes.

The complaint is directed against the Pennsylvania, the Baltimore and Ohio, the New York Central, and seventy-four other lines operating east of Chicago and other Lake Michigan and Lake Superior points.

It is represented that "by reason of conspiracy on the part of the defendant carriers, substantially all means of all-rail through transportation from Chicago to New York and other Atlantic seaboard points, and also all parallel and competing and through lines of transportation via the great lakes from Chicago and other lake points to Buffalo and from Buffalo to New York and other Atlantic seaboard points, are owned and controlled by the defendant carriers."

Recently the freight charges on grain received at Buffalo from the lakes—called ex-lake—were increased from Buffalo to Atlantic seaboard points.

It is alleged in the petition that these rates are unjust; that they are discriminatory, because they are much higher than the all-rail proportion from Buffalo to eastern destinations, and that they deprive the grain shippers on Lake Michigan and Lake Superior of the benefits of cheap water transportation to eastern points.

The Chicago board of trade charges that serious injury is being done it and the Chicago grain market generally by the advance.

CHICAGO-NEW YORK RACE OFF

Parts for Aeroplane Unobtainable and Race Is Called Off.

Chicago, Oct. 12.—At a late hour the long flight from Chicago to New York, which Ely started last Sunday and in which he covered only about twenty miles, was called off officially. Ely's machine is still reposing near Stiegletz Park, a suburb of East Chicago, where he alighted after an eleven mile trip.

While a crowd of 5,000 people gathered about the aidship, hoping to see him continue his journey, the aviator was in his room at a hotel asleep. He received a telegram from Glenn H. Curtiss saying the necessary parts for machine could not be obtained and the flight was abandoned.

TREE'S BODY REACHES CITY

Funeral of Famous Jurist and Millionaire Will Occur Thursday.

Chicago, Oct. 12.—The body of Lambert Tree, the Chicago jurist and millionaire, who died Sunday in the Waldorf-Astoria hotel, New York, of heart disease, has arrived in Chicago and was taken to the family residence, 620 Cass street. The body was accompanied by the late Mr. Tree's sister, Mrs. Jennie Rives of Summit, N. J., who was summoned from her home.

The funeral will be Thursday. Resolutions of respect were passed by the finance committee of the Democratic county committee. The committee will attend the funeral in a body. The Iroquois Club will also pass resolutions of sorrow.

MAYOR KISSES STAR ON STAGE

McCaskrin of Rock Island Gives 3,000 Theatergoers a Thrill.

Moline, Ill., Oct. 12.—When Mabel Mallum, a star at the Moline theater, sang "Has Anybody Got a Kiss to Spare," she was surprised to find that her challenge was accepted.

"Sure, right here," sang out Mayor George W. McCaskrin of Rock Island, as he stood up and leaned out of the box. The audience went wild and shouts of "You're alive!" and "Smack her again, Mack!" were heard throughout the house. The smack was given before an audience of 3,000.

Rescue Party at Starkville, Colo., Continues Search for Bodies.

Starkville, Colo., Oct. 12.—A telephone message from the Starkville mine, in which fifty men are entombed, said that the rescue party had found twenty-three bodies in the face of room 39, of entry J 7.

The party is now working in room 31, clearing the after damp and looking for bodies. Entry J 7 has rooms numbering up to 38. It was along this entry that the pick men were working when the explosion occurred.

FRENCH TRAINMEN VOTE HUGE STRIKE

General Tie-Up of All Systems Occurs This Morning.

SCARCITY OF FOOD STUFFS

President Fallieries Leaves His Country Seat for Paris on Special Train—Ministry of War Takes Hand in the Trouble.

Paris, Oct. 12.—At 1 o'clock this morning the National Confederation of Railway Unions voted in favor of a general strike on all the railway systems. Instructions were given that the vote should be made effective at once.

Paris, Oct. 12.—The news that a general strike had been voted reached the St. Lazares station in Paris at 10:40 last night. All the employes greeted the news with cheers. The uproar lasted until 11:15, when the last train arrived. The station was then deserted. Many Americans automobiled to Cherbourg, some paying 1,500 francs for a car holding five persons.

The Northern railways succeeded in getting out a train at 9 o'clock, but it was almost empty. Its arrival at its destination is problematical, as its 180 miles journey will have to be made without signals. Furthermore there is the possibility of rails being torn up.

The Official Journal publishes a decree calling on the 27,860 empolyes of the Northern railway to resume their duties under orders of the ministry of war. At a banquet last evening, at which Premier Briand spoke, the deputies present were of the opinion that this measure would not prove effective, especially if the strike proved to be general. M. Briand's speech was an eloquent defense of the ministry. He did not refer to the railway crisis.

The western strikers, either by accident or design, chose the time when the army is in the worst position to supply efficient aid to the government, as the men of the 1907 class have just finished their service.

The food markets resemble those of a besieged town. Meat and vegetables are very scarce and milk brings a famine price. The government is taking measures to supply the city with provisions.

President Fallieres left his country seat at 10 o'clock last night and started for Paris on a special train. The line was immediately guarded by soldiers to prevent any attempt to wreck the train.

Early Statuary.

The earliest statues were, as a matter of course, of wood, since the first artists lacked the tools necessary to work in stone. From all accounts, the first to sculpture marble were Diponus and Scyllis of Crete, probably around 560 B. C. The great edifices of Rome, as a rule, were constructed of or at least incased in marble. The famous ruins of Palmyra are of white marble. Regarding the cause of the superior excellence of the Greek sculpture no satisfactory word can be spoken. There is no accounting for genius. Like the wind, we see the work thereof, but know not "whence it cometh nor whither it goeth."—New York American.

Stage Snow in Spring.

In a play called "1812," in which Napoleon's crossing of a frozen river is shown with snow falling, the last act shows an old soldier's return home. It is springtime, there are roses climbing up the cottage walls, the fruit trees are in bloom, and the old hero sits in a chair in a cozy room with all the windows open. But, much to the spectators' amusement, snow continued to fall not only outside the room, but inside it. The actor who played the old soldier noticed the audience's amusement, and to account for the snow he gagged. "Pay no attention to the snow," he said to his stage wife. "It's a habit I contracted in Russia."—London M. A. P.

Seeing Around Corners.

There are many insects which have a very much larger field of vision than we have. This is due to the greater concavity of their eyes, enabling them to see around the corner, so to speak, behind and at the sides. This development in man would have its objectionable points, but also its good ones, not the least of which might be the detection of pickpockets.—Chambers' Journal.

TRIES TO BLOW HEAD OFF

John Lane's Father Also Kills Himself Intentionally.

Demented Lansing Man Makes Bad Job of Attempted Suicide, but Will Likely Die.

Lansing, Mich., Oct. 12.—John Lane, a laborer, about 40 years old, and unmarried, attempted to commit suicide at his home by placing a muzzle of a shotgun against the base of his skull and then pulling the trigger with a string. The charge tore through his neck, fracturing the skull and burying itself in the ceiling. His chances of recovery are very slim.

Lane has acted queerly for some months. He accused neighbors of attempts on his life, and declared that he would protect himself and shoot back. A number of firearms and a quantity of ammunition were found at the house by the police. Insanity runs in the family, it is said, and Lane's father killed himself.

The one hundred men engaged to assist in getting the baloon out of its hangar were notified to be on hand at 4 a. m., when it is believed that a calm will make their work of floating the bag and car easy.

BOYS' BODY USED TO ESCAPE BULLET

Biff Clark Kills Lad and Later Shoots Self to Escape Mob.

SHOOTING FOLLOWS QUARREL

Man Trying to Escape Grabs Boy and Holds Him in Front of Himself to Save Life—Little Fellow Killed by Pistol Shot.

New York, Oct. 12.—A school boy named Charley Fisher, of 1439 Madison avenue, was playing ball with some other boys in Madison avenue at East One Hundred and Third street, about the time the homecoming workers were crowding the neighborhood, when two men stopped at the corner and began to fight. When one of the men pulled a revolver from his pocket the other yelled with fright and ran toward Charley Fisher. The frightened man picked up Charley bodily and held the boy in front of him as a shield from the expected bullet.

"Don't be a damn fool," the frightened man cried, as he tried completely to hide himself behind Charley's slight form. "Look out, Biff; don't shoot the kid."

Charley added his yells of terror to those of the man holding him. As the boy tried to struggle away the man with the revolver fired. The bullet entered Charley's head. The man for whom the bullet was intended, let loose of Charley and the boy crumpled to the pavement.

Within five seconds the homegoers who had been halted by the crack of the pistol came charging toward the corner where the boy lay bleeding. The man who had held him turned and ran from the mob eastward and got away.

Biff Clark, a former prizefighter, is the man who did the shooting. Biff's real name is said to be Harry Greenwald. 25 years old. He and another man—thought to be the one who ran from the crowd—some time ago rented a room together in the building in front of which the shooting occurred.

The fight between the two and the argument had been noticed only by Charley Fisher and his playmates and very few saw the man who escaped pick up Charley. The crowd thought that Biff Clark had shot the boy wantonly and so they charged upon Biff savagely.

From shop doors and from passing cars and the streets running off in four directions they converged toward Biff. He swung in a quick circle once or twice with leveled revolver and held the leaders of the mob back for a moment. While there was still an opening in the narrowing circle of faces Biff broke through and ran south on Madison avenue with a blockful of people jostling and yelling behind him.

The crowd almost were within grabbing reach when he got to Fifth avenue. At the door of 1208 Fifth avenue, Clark turned and disappeared in the dark hallway of the flat house. A half hour later he suddenly appeared in the doorway.

Those who saw his face yelled the news, and back came the searchers. With Policeman Searls in the lead, they struggled into the hallway after Clark. At the far end of the hallway he stopped and braced himself against the wall. The crowd was closing in on him and he pressed the revolver against himself and fired twice. He fell dead to the floor. Charley Fisher was hurried to the Harlem hospital, where he died.

Crowell of this city, lies a victim of one of the White House automobiles. The hospital authorities assured Mrs. Taft that the boy was in no great danger. The accident occurred while Mrs. Taft was returning from Boston.

Speaking of the Divorce Evil

Trying to succeed in business without advertising is like the case of the man who, trying to cut expenses, divorced his wife and alone attempted to keep house and raise his children. It cost him more money for doctor bills and funeral expenses in a year than he gave his wife in a lifetime.

When advertising is divorced, business success becomes failure.

This paper is building your neighbor's business. He has reasons. He tried advertising and it helped him. It is not an experiment — this paper brings results. Good, hard, convincing results — *dollars.*

KIDNEY MISERY AND BACKACHE VANISHES

A FEW DOSES MAKE KIDNEYS ACT FINE AND END URINARY TROUBLE.

No reader of this paper, whether man or woman, need be miserable because of Backache or kidney or bladder disorders.

The time to cure kidney trouble is while it is only trouble; before it settles into Dropsy, Gravel, Diabetes or Bright's Disease.

Pape's Diuretic acts at once upon the kidneys, bladder and entire urinary system, cleanses, heals and regulates these organs, ducts and glands and completes the cure within a few days. The moment you suspect any kidney or urinary derangement, or feel a constant, dull backache or notice that the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a sensation of scalding, you should begin taking Pape's Diuretic as directed, with the knowledge that there is no other remedy, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure.

Misery in the back, sides or loins, sick headache, inflamed or puffy eyelids, nervousness, Prostatic trouble, rheumatism and darting pains, heart palpitation bilious stomach dizziness, sleeplessness, listless, weak, worn out feeling and other symptoms caused by inactive, sluggish kidneys simply vanish. Uncontrollable urination (especially at night) smarting, discolored water and all bladder misery ends.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape Thompson & Pape of Cincinnati, O. who prepare Pape's Diuretic—50c treatment—sold by every druggist in the world.
